

CONGRESS PROGRAM

THURSDAY 16 JUNE 2022

0730 - 1800	Registration Desk Open	
0800 - 1900	Exhibition Open	
0830 - 1030	Session 1A - Prepectoral Breast Reconstruction Masterclass	0830 - 1030 Session 1B - Aesthetic
	Meeting Room 5&6	Meeting Room 7
0830 - 1030	Rationale; patient selection and technical choices; step by step technique and long term outcomes Dr Maurice Nahabedian	0830 - 0840 The problem of revision mammoplasty and the value computed tomography angiogram in pedicle selection Dr Rachna Ram
		0840 - 0850 Contemporary Australian practice trends in antiseptic rinse for breast device surgery Dr Sean Leow
		0850 - 0900 Body image in Australians compared to women with breast hypertrophy and us norms A/Prof Nicola Dean
		0900 - 0910 A qualitative study on the experiences of women with r ectus diastasis Dr Siobhan Fitzpatrick
		0910 - 0920 Motivations and limitations - understanding what factors influence patients' decision to proceed with aesthetic surgery Dr Alyse Hopkins
		0920 - 0930 A novel technique for umbilical preservation in ventral hernia repair and concurrent abdominoplasty Dr Eugenia Koulaeva
		0930 - 0940 Reconstruction of penile suspensory ligament using tensor facia lata - a case series Dr Elnaz Masoumi
		0940 - 0950 Acquired buried penis: how to repair it? Dr Gagandip Sanghera
		0950 - 1000 Cosmetic surgery and complications, who is responsible? Dr Eugenia Koulaeva
		1000 - 1010 The relation of the facial nerve to the deep fascia of the head and neck Dr Lennert Minelli
1010 - 1020 Dual plane abdominoplasty: A technique allowing for significant liposuction with lymphatic preservation Dr Richard Kiff		
1030 - 1100	Morning Tea & Exhibition & Poster Viewing	
1100 - 1230	Session 2 - BK Rank Lecture	
	Meeting Room 5&6	
1100 - 1200	Morphogenesis with Fat Dr Roger Khouri	
1200 - 1215	How to have your abstract accepted for the PSC Dr Darrell Perkins	
1215 - 1230	SET Program Update Dr William Blake	
1230 - 1330	Lunch & Exhibition & Poster Viewing	

1330 - 1530	Session 3A - Breast Surgery	1330-1530	Session 3B - Head & Neck Reconstruction
	Meeting Room 5&6		Meeting Room 7
1330 - 1400	A unified approach to vertical and wise pattern reduction - optimising outcomes and minimising complications over a career Mr Stephen McCulley	1330 - 1340	Bilateral medially based abbe flaps for sub-total and total lower lip reconstruction Dr Noah Betar
		1340 - 1350	A retrospective study of the outcomes of free flap head and neck reconstruction when comparing Virtual Surgical Planning with conventional planning Dr Emma Mactaggart
		1350 - 1400	The prognostic significance of lymphovascular invasion in cutaneous squamous cell carcinoma Dr Sarah Huang
1400 - 1415	The "Incision Free" flap: A versatile breast procedure Dr Roger Khouri	1400 - 1410	Immunotherapy to avoid orbital exenteration in patients with cutaneous squamous cell carcinoma Dr Carly Fox
		1410 - 1420	Clinicopathological comparison of cutaneous head and neck melanoma versus melanoma of other sites in the era of modern systemic therapy Dr Andrew Li
1415 - 1430	The AFTER (Autologous Fat Transfer and Expansion Reversal) mastectomy reconstruction procedure Dr Roger Khouri	1420 - 1430	Neoteric islanded cosmetic subunit perforator flaps in head and neck reconstruction Dr Justin Yousef
		1430 - 1440	The reconstruction of scalp defects with biodegradable temporising matrix (BTM) A/Prof Marcus Wagstaff
1430 - 1445	Replacing implants with fat: Treating the complications while preserving the augmentation Dr Roger Khouri	1440 - 1450	An anatomical appraisal of dynamic muscle transfer of the orbicularis oculi muscle Mr Daniel Saleh
		1450 - 1500	Free helical root flap in the algorithm of nasal reconstruction: A retrospective case series Dr Oliver Hovav
1445 - 1455	Fat Transfer: The Australian journey and where we are now Dr Raja Sawhney	1500 - 1510	Diversity of free helical rim flap: The experience of tailored microsurgical technique for aesthetically optimised full thickness nasal defect reconstructions Dr Jessica Medland
1455 - 1510	Implants vs fat transfer: Where does fat fit in the toolbox? Dr Raja Sawhney		
1510 - 1530	Panel Discussion	1510 - 1520	Approach in anterior nasal surgical oncology and reconstruction Amanda Yung
1530 - 1600	Afternoon Tea & Exhibition & Poster Viewing		

1600 - 1730	Session 4A - Breast Reconstruction 	1600-1730	Session 4B - Limb Reconstructive
	Meeting Room 5&6		Meeting Room 7
1600 - 1630	Decision making: TE-I vs DTI breast reconstruction Dr Maurice Nahabedian	1600 - 1610	Cut to the chase: a primary limb salvage approach following shark bite injuries Dr Ania Smialkowski
		1610 - 1620	Reconstruction of complex wounds requiring radiotherapy using novosorb® biodegradable temporising matrix: A case series Dr Henry Li
		1620 - 1630	Measuring blood flow in flow-through versus end-perfusion pedicle configurations in auto transplanted free flaps: An experimental pilot study Dr Daniel Lake
1630 - 1715	Radiation and prosthetic breast reconstruction: A 25 year experience Dr Maurice Nahabedian	1630 - 1640	Bimalleolar soft tissue reconstruction with chimeric anterolateral thigh flaps Dr Rhys Youngberg
		1640 - 1650	Outcomes in compound lower limb fracture reconstruction: A five-year review Dr Sadhishaan Sreedharan
		1650 - 1700	LYMPHA (Lymphatic microsurgical preventive healing approach) for patients needing nodal clearance - reducing burden of lymphedema Dr Chandan Jadhav
		1700 - 1710	Perforator based closure of the anterolateral thigh donor site Dr Morgan Haines
		1710 - 1720	Functional longitudinal split tibials anterior muscle flap to cover exposed tibia - a case series Dr Samitha Prasad Iddagoda Hewage Don
1715 - 1730	Radiation induced sarcoma of the breast Kathryn Steele	1720 - 1730	Acute versus non-acute targeted muscle reinnervation for pain control following major limb amputation - is prevention better than cure? Dr Andrew Li
1730 - 1900	PSC 2022 Priority Life Welcome Reception - Exhibition Hall 		

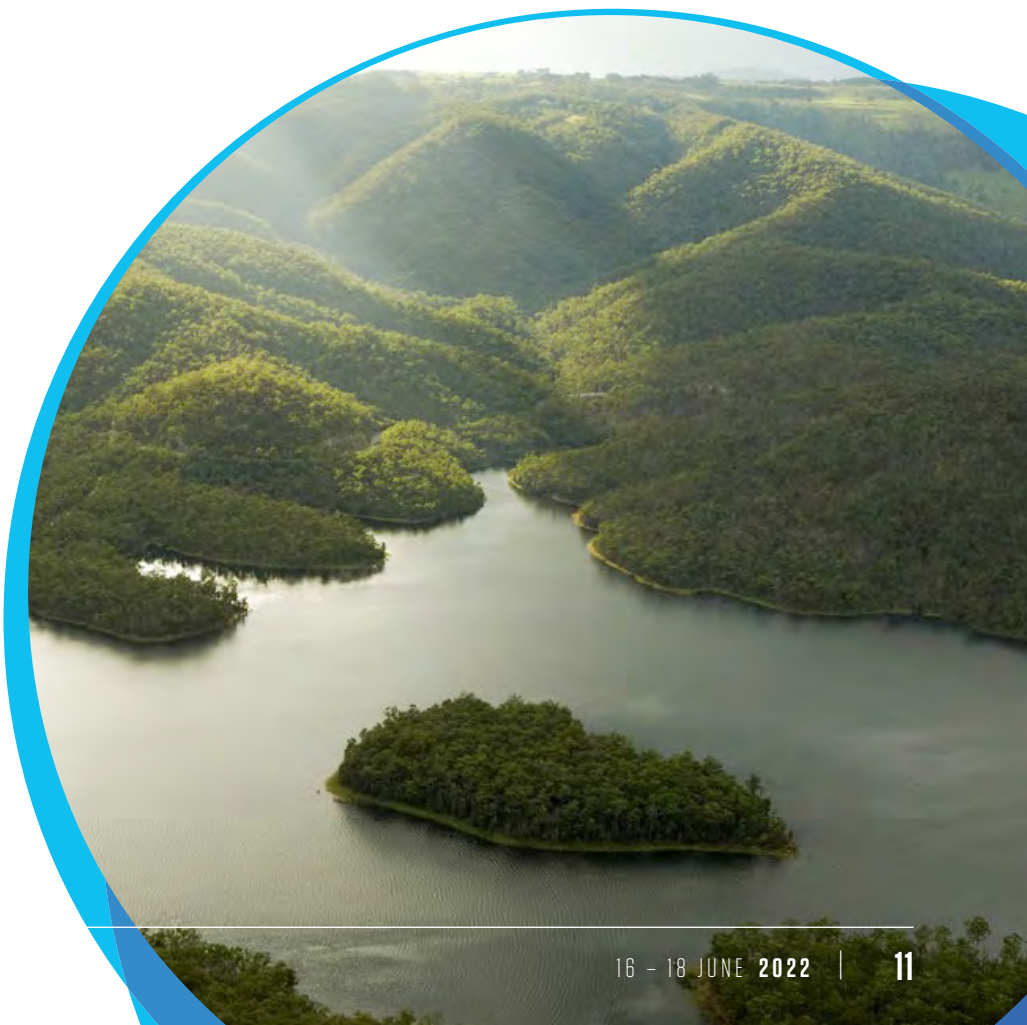

FRIDAY 17 JUNE 2022

0700 - 1730	Registration Desk Open		
0700 - 0815	PolyNovo Industry Breakfast Session The Evolving Role of Dermal Matrices in Complex Wound Reconstruction		
Room 9 - Advance Booking Required			
0800 - 1700	Exhibition Open		
0830 - 1030	Session 5 - Breast Fat Grafting Masterclass		
Meeting Room 5&6			
Fundamental Principles and their Practical Application to Fat Grafting the Breast Dr Roger Khouri			
1030 - 1100	Morning Tea & Exhibition & Poster Viewing		
1100 - 1230	Session 6A - General Plastic Surgery	1100 - 1230	Session 6B - Breast Reconstruction
Meeting Room 5&6		Meeting Room 7	
1100 - 1130	Our algorithm for gynaecomastia correction Professor Eferpi Demiri	1100 - 1110	"BRA" - The breast reconstruction app Dr Caitlin O'Hare
		1110 - 1120	Three-dimensional volume changes of reconstructed breast following deep inferior epigastric perforator flap breast reconstruction Dr Mi Kyung Lee
		1120 - 1130	The use of glyceryl tri-nitrate in pre-operative computed tomographic angiography for autologous breast reconstruction Dr Dylan Prunster
1130 - 1200	3D purpose built implants for chest wall asymmetry and pectus excavatum Mr Stephen McCulley	1130 - 1140	The evolution of exclusively subcutaneous prosthetic breast reconstruction over eight years - a two person breast oncology and reconstructive surgical team experience A/Prof Bruce Johnstone
		1140 - 1150	Novel technique to optimise aesthetics in shaping of abdominal flap breast reconstruction Dr Sarah Lonie
		1150 - 1200	First experiences with laparoscopic DIEP reconstruction in Australia/Asia Dr Bish Soliman
1200 - 1215	Regenerative wound closure by percutaneous mesh expansion Dr Roger Khouri	1200 - 1210	The risk of breast cancer recurrence following breast reconstruction - analysis from single tertiary institution Dr Brett Sacks
		1210 - 1220	The innervated rectus abdominis perforator turnover (RAPT) flap for preserving rectus continuity: An alternative to the DIEP flap? Prof Warren Rozen
1215 - 1230	Plastikos surgery: flesh to putty: moulding vs tailoring Dr Roger Khouri	1220 - 1230	Design and assesment validation of a vessel filter for automated segmentation of the deep inferior epigastric artery perforator system Dr Rachna Ram

Delegates are also welcome to participate in the Wound Management Program for Friday 17 June - see details on page 16

1230 - 1330	Lunch & Exhibition & Poster Viewing		
1330 - 1530	Session 7A - Breast Asymmetry and Complications	1330 - 1530	Session 7B: Presentations
	Meeting Room 5&6		Meeting Room 7
1330 - 1400	Success of mastectomy and immediate autologous reconstruction - perspectives of an oncologically trained plastic surgeon Mr Stephen McCulley	1330 - 1350	Breast implant check clinic - a review of clinical data and analysis of factors related to common implant complications Dr Anand Deva
1400 - 1430	Efficiencies in DIEP flap surgery - role of MRA imaging, perforator selection and dissection technique Mr Stephen McCulley	1350 - 1410	Augmentation Mastopexy - Planning and Performance for Predictability Dr Craig Layt
1430 - 1445	Delayed autologous breast reconstruction with a predesigned DIEP Flap Professor Eterpi Demiri	1410 - 1430	Inferior Malposition - Prevention, Analysis and Treatment Dr Craig Layt
1445 - 1505	Autologous delayed breast reconstruction: DIEP vs Fat-augmented latissimus dorsi flap Professor Eterpi Demiri	1430 - 1450	Looking as good standing up as lying down - temporal and malar lifts, blepharoplasties and fat grafting Dr Alastair Taylor
1505 - 1530	Discussion	1450 - 1530	Decision making in facelifts -long or short scar? Dr Darrell Perkins
1530 - 1600	Afternoon Tea & Exhibition & Poster Viewing		
1600 - 1745	Final Session		
	Meeting Room 5&6		
1600 - 1645	MBS Item Number session: Major changes outlined		
1645 - 1745	ASPS Annual General Meeting		
1930 - 2300	PSC 2022 Priority Life Gala Dinner - Gold Coast Convention & Exhibition Centre		

SATURDAY 18 JUNE 2022

0700 - 1700	Registration Desk Open				
0700-0800	3M Industry Breakfast Session Innovations in Negative Pressure Wound Therapy				
Room 9 - Advance Booking Required					
0800 - 1600	Exhibition Open				
0830 - 1030	Session 9A - Autologous Breast Reconstruction	0830 - 1030	Session 9B - CMF and Paediatric	0830 - 1030	Hand Surgery Program Opening Session
	Meeting Room 5&6		Meeting Room 7		Meeting Room 9
0830 - 0850	Management of capsular contraction Dr Maurice Nahabedian	0830 - 0840	Efficacy of radiation safety improvements in craniosynostosis patients Dr Liana Cheung	0830 - 0845	Practical Hand Surgery sans anaesthesia Dr Roger Khouri
		0840 - 0850	An inter-rater variability analysis using the bergland grading system for secondary alveolar bone grafts at a single institution Dr Oliver Hovav	0845 - 0900	1st CMCJ Arthritis Prof Randy Bindra
0850 - 0920	Approaches and technique selection in breast asymmetry - changing perspectives over a career Mr Stephen McCulley	0850 - 0900	Convergence of scaffold-guided bone regeneration principles and microvascular tissue transfer surgery Dr David Sparks		
		0900 - 0910	Long term outcomes of fibular transfer for knee extensor mechanism reconstruction following proximal tibial resection for paediatric osteosarcoma Dr Joseph Overland		
		0910 - 0920	3D-printed biodegradable PCL MESH in paediatric cranial vault surgery: A descriptive case study Dr Isabel Gonzalez Matheus	0915 - 0930	Regenerative Treatment of Degenerative CMC Joint Arthritis Dr Roger Khouri
0920 - 0945	Breast asymmetry: Surgical approach and algorithm for reconstruction Professor Eferpi Demiri	0920 - 0930	Vacuum-assisted closure therapy for cranial defects with exposed dura or brain: A case report and review of the literature Dr Isobel Yeap		
0945 - 1010	Aesthetic breast surgery: Management of primary and secondary asymmetries Dr Maurice Nahabedian	0930 - 0940	Iliac crest cap cartilage grafts in intermediate cleft rhinoplasty Dr Liana Cheung	0930 - 0945	Dupuytren's contracture - alternatives to surgery Dr Warren Rozen
		0940 - 0950	The cho angle: A novel screening tool in the diagnosis of non-syndromic sagittal craniosynostosis Dr Liana Cheung	0945 - 1000	Dupuytren's Contracture - Role for Radiotherapy Dr David Christie
		0950 - 1000	Patient reported outcomes for secondary alveolar bone graft take at a single institution Dr Luke Watson		
1000 - 1030	Panel Discussion	1000 - 1010	Immediate reconstruction and rehabilitation of the mandible - the royal Melbourne experience with 'Jaw in a Day' Dr Federico Barbera	1000 - 1030	Biofabrication in the hand Dr Michael Wagels
		1010 - 1020	Management of sagittal craniosynostosis: Comparison of spring-assisted cranioplasty, vault expansion and distraction osteogenesis A/Prof Damian Marucci		
1030 - 1100	Morning Tea & Exhibition & Poster Viewing				

1100 - 1230	Session 10A - Lymphoedema Surgery Masterclass	1100 - 1230	Session 10B - General Breast	1100 - 1230	Hand Surgery Program Mid-morning Session
	Meeting Room 5&6		Meeting Room 7		Meeting Room 9
1100 - 1130	Breast cancer related lymphoedema: Our approach and microsurgical options Professor Efterpi Demiri	1100 - 1110	Oral isotretinoin (Roaccutane) use during plastic surgery: Safe or risky? Dr Matthew Davies	1100 - 1120	Non-union - How to get in front of bone healing Prof Randy Bindra
		1110 - 1120	In-vitro study of microbial growth and contamination of breast implants based on delivery method Dr Oliver Chow		
		1120 - 1130	The Volume Distribution Ratio (VDR) and the sphericity factor : A Novel approach to analyzing breast shapes and to objectively evaluate breast surgery outcomes Dr Tim Sebastian Peltz	1120 - 1140	Current indications of nerve conduits Prof Randy Bindra
1130 - 1200	Simultaneous breast and lymphoedema reconstruction using a predesigned DIEP and lymph node flap Professor Efterpi Demiri	1130 - 1140	Cost-utility analysis of breast reduction surgery in Australia Dr Tamara Crittenden	1140 - 1200	Replants of regret Dr Kieran Rowe
		1140 - 1150	Long term follow up in teenage patients undergoing PASSOT technique reduction mammoplasty - An objective and patient satisfaction oriented assessment Dr Akshay Kapoor		
		1150 - 1200	The Eclipse procedure as an alternative to mastopexy following implant removal Dr Oliver Chow		
1200 - 1230	Lateral thoracic lymph node flap for lower limb lymphoedema Professor Efterpi Demiri	1200 - 1210	How does breast size impact women's health? Dr Claire Baxter	1200 - 1220	Pain in the hand - Is CRPS real? Dr Cam Mackay
		1210 - 1220	Intraoperative inter pectoral and sub serratus nerve blocks reduce post operative opiate requirements in ambulant breast augmentation surgery Dr Conor McCartney	1220 - 1230	Use of Integra in hand injuries Dr Daniel Williams
1230 - 1330	Lunch & Exhibition & Poster Viewing				

Delegates are also welcome to participate in the Wound Management Program for Saturday 18 June - see details on page 16

1330 - 1530	Session 11A - Oncoplastic Breast Surgery Masterclass	1330 - 1530	Session 11B - Burns and Wound Management	1330 - 1530	Hand Surgery Program Mid-afternoon Session
	Meeting Room 5&6		Meeting Room 7		Meeting Room 9
1330 - 1410	Modern oncoplastic breast conserving techniques - advantages and overview of technique selection Mr Stephen McCulley	1330 - 1340	Acute management of skin tears with MESH grafting, a prospective case series and cost benefit analysis Dr Matthew Davies	1330 - 1345	The Use of Dermal templates in covering hand defects Professor Efterpi Demiri
		1340 - 1350	Changing the focus from custom-made to ready-wear -compression in paediatric plastics care Emma Caldwell	1345 - 1405	Versatility of island flaps for digital reconstruction Dr Dilip Gahankari
		1350 - 1400	The impact of clinical feedback on burn injury retrieval and transfer Dr Morgan Haines		
		1400 - 1410	Graft-host interactions in full-thickness wounds using mouse models Dr Nicole Garcia	1405 - 1425	Our algorithm in reconstructing soft tissue defects of the digits with loco-regional flaps Professor Efterpi Demiri
1410 - 1450	Local perforator flaps in breast conserving surgery - markings and techniques Mr Stephen McCulley	1410 - 1420	In adipose tissue engineering, adipogenesis a fine balance between inflammation and adipogenesis Miss Wali Sholeh Boodhun	1425 - 1440	Thermal injuries of the paediatric hand : treatment and prevention of post-burn sequelae Professor Efterpi Demiri
		1420 - 1430	Plastic surgical trainees' perspectives toward burn surgery in Australia and New Zealand: Changes in the last 17 years? Dr Cheng Hean Lo		
		1430 - 1440	Intubation and extubation criteria of patients with burn injury Dr Elizabeth Concannon		
		1440 - 1450	Ablative fractional CO2 laser for adult hypertrophic burn scars: A longitudinal cohort study Dr Noah Betar		
1450 - 1530	Oncoplastic mammoplasty (therapeutic mammoplasty) in breast conserving surgery - technical considerations Mr Stephen McCulley	1450 - 1500	Intravenous iron therapy to treat burn anaemia: A retrospective cohort study Dr Noah Betar	1500 - 1520	Avulsion injuries of the digits : Where are we today? Professor Efterpi Demiri
				1520 - 1530	An update on PFET - Post fellowship training in Hand Surgery Dr Alexa Potter
1530 - 1600	Afternoon Tea & Exhibition & Poster Viewing				

Delegates are also welcome to participate in the Wound Management Program for Saturday 18 June - see details on page 16

1600-1730	Session 12A - Congress Closing Session	1600 - 1730	Hand Surgery Program Final Session
	Meeting Room 5&6		Meeting Room 9
1600 - 1630	When Sarcoma Oncology Meets Reconstruction Kathryn Steele	1600 - 1610	Percutaneous clostridium histolyticum collagenase for multi-ray and bilateral hand dupuytren contracture Dr Mark Edmondson
		1610 - 1620	A custom made test for functional grip strength analysis Dr Ricky Bilbao
1630 - 1650	Reconstruction of the diabetic foot: neurocutaneous vs propeller cutaneous flaps Professor Eferpi Demiri	1620 - 1630	Unipedicled Neurovascular Islanded Total pulp advancement flap – A better choice for fingertip reconstruction – a case series Dr Samitha Iddagoda
1650 - 1710	Large-Volume Autologous Fat Grafting to the Breast: An Evidence Based Review Professor Maurice Nahabedian	1630 - 1640	Failure Forces of Subtotal Flexor Tendon Laceration Dr Timothy Studley
		1640 - 1650	No tourniquet, no cautery technique for open carpal tunnel release Dr Muhammad Zeeshan Ahmed
1710 - 1730	Managing Breast Cancer in Patients with Prior Breast Augmentation Professor Maurice Nahabedian	1650 - 1700	Operative management of atraumatic aneurysms of the radial artery: the case for vein grafting / The role of extensor pollicis longus in aneurysms of the distal radial artery Dr Daniel Lake
		1700 - 1710	Comparison of Two Osteochondral Graft Techniques For Unstable Proximal Interphalangeal Joint Fractures Dr Geoffrey Lee
		1710 - 1720	Hitting the nail on the head: deep inferior epigastric artery donor for hypothenar hammer syndrome reconstruction Dr James Briffa
